

PJRFSI Announces CanadaGAP® Licensing Agreement

FOR IMMEDIATE RELEASE AUGUST 14, 2020 – TROY, MI

Perry Johnson Registrars Food Safety, Inc. (PJRF SI) is pleased to announce the signing of a licensing agreement with the CanadaGAP Program in order to offer audit and certification services.

As a CanadaGAP licensed third-party Certification Body, PJRF SI will soon be able to provide services for fresh fruit and vegetable operations enrolled in the CanadaGAP program. Food safety standards outlined by CanadaGAP must be followed by participants, with regular completion of on-site audits necessary to achieve and maintain CanadaGAP certification.

PJRF SI Senior Vice President of Food Safety & Supply Chain Paul Damaren expressed enthusiasm for the new partnership: “We are excited to build on our food certification audit heritage and expand our capabilities with the CanadaGAP program [...] [this is] a natural fit with one of our core values: protecting customers.”

With an extensive history of rigorous, regularly-revised standards, the CanadaGAP program was a logical choice to add to PJRF SI’s array of programs offered to clients. “Adding CanadaGAP to our services of agricultural food safety audits and standards aligns with our strong commitment to offering the best food safety solutions and certification programs from farm to fork,” stated Lauren Maloney, PJRF SI’s Food Safety Program Accreditation Manager.

For clients who may be interested in learning more about CanadaGAP program options and requirements, visit the CanadaGAP website at <https://www.CanadaGAP.ca/> - and stay tuned for further updates when PJRF SI services become available!
